### **Event Description**

Haben Girma would prefer not to be called inspiring. But, as the first Deafblind woman to make Harvard history and living in defiance of great social and physical barriers, it is a term often used to describe her achievements.

Girma developed a powerful path to success despite facing many social and physical barriers. Overcoming all with an insatiable appetite for social justice as well as a wicked sense of humour, she's become a leading advocate for people living with disabilities. Girma has been named one of the Forbes 30 Under 30 and was awarded the White House Champion of Change, presented by former President of the United States, Barack Obama.

In her memoir, *Haben: The Deafblind Woman Who Conquered Harvard Law*, Girma shares how her parents' harrowing stories of refuge from Eritrea during its 30-year war with Ethiopia inspired her to embark on a quest for knowledge; traveling the world in search of the secret to belonging.

Girma in conversation with ABC's Nas Campanella, retells some of these adventures and explains how they led her from feelings of isolation to conquering Harvard Law.

Haben's story is a testament to one woman's determination to show the world the benefits of choosing inclusion.

This event is presented by the UNSW Centre for Ideas and the UNSW Disability Innovation Institute.
